NEWS and MUD Conference Welcome; Paul Wade, W1GHZ and Mark Casey, K1MAP	iii
Conference Committees	iv
Tentative Conference Schedule — Updates may be posted or provided at conference.	v
North East Weak Signal Group Officers and Directors	vi
Banquette Speaker: Dr. Nathan Cohen, W1YW	vii
Conference Presentation Agenda.....	viii
Conference Speakers	x
MUD Technical Papers – All Topics 900 MHz and Higher in Frequency:	
History of Microwave Update; Al Ward, W5LUA.....	1
A New All Band Power Meter; Paul Wade, W1GHZ	4
WR-28 Wave Guide Switch Controller; Al Ward, W5LUA, and Jim McMasters, KM5PO	11
Some Ideas for Microwave Stations; Bob Lear, W4ZST.....	16
A 1/4 Watt No-tune Amplifier for Cheap and Simple Transverters; Paul Wade, W1GHZ	20
Conductive Paint on Polylactic Acid 3D Printed Parts; Michelle Thompson, W5NYV	24
A simple Arduino-based AZ-EL Readout/Display; Chuck MacCluer, W8MQW	34
Periscope Antenna Revisited — and Performance Demonstrated; Paul Wade, W1GHZ	38
SHF 3456K “No-Tune” Transverter Conversion Notes; Dale Clement, AF1T	44
INTRFIL: Design and Construction of Round Rod Interdigitated Filters; Dennis Sweeney, WA4LPR	46
Waveguide Matching Plates; Paul Wade, W1GHZ.....	63
Packaging a DB6NT 47 GHz XVTR Testing Components at 47GHz; Al Ward, W5LUA	78
The ARTEN Project; Paul Fredette, K1YBE	95

Spectrum Analyzer Frequency Expansion; Doug Millar, K6JEY.....	101
Sectoral Horn Antennas for Microwave Beacons; Paul Wade, W1GHZ.....	105
Using WIPL-D EM Simulation to Prepare a W2IMU Feedhorn for a 0.5 f/D Offset Dish and Adapt to WR22 at 47 GHz; Oliver Barrett, KB6BA.....	111
EHF Microwave Activity on March 1, 2023; Mike Seguin, N1JEZ	128
Design of Optimized Cassegrain Antenna Systems; Paul Wade, W1GHZ.....	135
122 GHz Experiments and Construction; Doug Millar, K6JEY, and Tony Long, KC6QHP.....	151
A 10-12.5 GHz in, 40-50 GHz out Quadrupler; Tom Williams, WA1MBA.....	164
Large W2IMU Dual-Mode Feeds for 47, 78, and 122 GHz; Paul Wade, W1GHZ, and Don Twombly, W1FKF	167
A 3D Printed 47 GHz Cassegrain Antenna; Rene Barbeau, VE2UG	177
A Minimum Discernible Signal Comparison Signal Generator; Tom Williams, WA1MBA	193
10 & 24 GHz Dual-band Feedhorn Alignment; Paul Wade, W1GHZ.....	203
External Mixers; Kent Britain, WA5VJB/G8EMY.....	209
NEWS Technical Papers – All Topics 432 MHz and Lower in frequency:	
The North East Weak Signal Group.....	212
Yaesu Transverter Sequencer in a Mini DIN; Wayne Getchell, VE3CZO.....	213
Miniverter Mark 3; Paul Wade, W1GHZ.....	234
Digital Display for the Icom IC202: New Life for an Old Friend; Dennis Sweeney, WA4LPR...	242
Yaesu FT-817 ACC Jack Switched +13.8V Mod; Wayne Getchell, VE3CZO	250
A proposal for passing stations to other bands using FT8; Bob Lear, W4ZST	251
An Arduino-based sequencer; Chuck MacCluer, W8MQW	263
Simple RF Power Monitor; Paul Wade, W1GHZ	266
The Impact of FTx in VHF Contests with a Look at Recent Results from the Analog Only Contest Categories; The ARRL CAC VHF+ Subcommittee	270

The Larcen High Band 1500 Watt Amplifier Adapted for 222 MHz Weak Signal Work; David Olean, K1WHS.....	283
The Northeast HamXposition; Skip Youngberg, K1NKR	301
The Story of an Ugly 432 MHz Low Pass Filter; Barry Priddy, K5VIP	309
Great Noise Figure, but still can't hear?; Paul Wade, W1GHZ	313
The Quest for 222 MHz WAS; Joel Harrison W5ZN; Charles Betz NØAKC, and Al Ward W5LUA	318
Compendium of Cushcraft Six Meter Antenna Modifications; Chris Patterson W3CMP	347
ARRL Contest/Operating Events Update; Bart Jahnke, W9JJ; Paul Bourque, N1SFE, and Rus Healy, K2UA	360
Conference Awards and NF and Antenna Range Results:	
The Don Hilliard Technical Achievement Award.....	366
Tom Kirby Memorial Award.....	368
The Worked All Bands Award.....	370
Microwave Update 2019 Noise Figure Results.....	371
Microwave Update 2019 Antenna Range Results	372
